YU-CHIEN (JASON) CHEN

qaz12345tt99@gmail.com | 734-210-96961 | Jersey City, NJ

EDUCATION

Master of Science in Computer Science Expect May 2026
Stevens Institute of Technology, Hoboken, New Jersey
Relevant Graduate Coursework: Algorithms and Data Structures, Artificial Intelligence, 3D Computer Vision, Web Programming, Database Management Systems, Knowledge Discovery & Data Mining, Agile Methods for Software Development

Bachelor of Natural Sciences, Department of Mathematics Jun 2015 - May 2019
National Chung Cheng University, Chiayi, Taiwan
Relevant Coursework: Linear Algebra, Discrete Mathematics, Probability & Statistics, Numerical Linear Algebra, Abstract Algebra

EXPERIENCE

Chengli Innovation Co., Ltd. Development –azure cloud development company, Taipei, Taiwan Nov 2022 - Aug 2024
Software Development Engineer

- Led a team of 5 engineers to develop a cloud-based procurement notification system for Taipei 101 using ASP.NET Core MVC, delivering the system within 2 months and improving communication efficiency by 30%.
- Revamped a large-scale ERP system by implementing multilingual support using Angular, ASP.NET Core, and Microsoft SQL Server, improving page load performance by 25% and enhancing accessibility.
- Designed and built a corporate information portal with real-time progress visualization using ASP.NET Core and MSSQL, increasing project profitability by 15% through improved cost and revenue analysis.
- Initiated and implemented Azure DevOps CI/CD pipelines, accelerating development and deployment cycles by 40% and improving cross-team collaboration.

Digihua Intelligent Systems Co., Ltd – Top 3 ERP company in Taiwan, Taichung, Taiwan Dec 2020 - Mar 2022
Development-Technical R&D Engineer

- Developed multilingual import/export modules using C#, WinForms, and SQL, supporting 5+ languages and improving operational efficiency by 40% across multiple client systems.
- Implemented 10+ customized ERP features including data validation, report syntax verification, and import automation using C#, DevExpress, and NPOI.
- Deployed and customized APS (Advanced Planning & Scheduling) systems for 5+ enterprise clients, resolving complex data integration and business logic issues.
- Collaborated with 10+ cross-regional stakeholders and presented technical solutions to senior management, ensuring alignment between engineering and business goals.

ADDITIONAL EXPERIENCES & PROJECTS

Full-Stack Web Application Dec 2025

- Developed a full-stack web application using Node.js, Express, MongoDB, and Handlebars, implementing authentication, session management, and RESTful APIs.
- Collaborated in a team environment using Git and GitHub, contributing to backend logic and feature integration.
- GitHub: https://github.com/nickkogut/CS546-Group24-Project

SKILLS

- **Programming Languages**: C#, Java, SQL, JavaScript
- **Backend & Frameworks**: .NET Core, ASP.NET Core, Spring Boot
- **Frontend**: Angular, HTML5, CSS
- **Databases**: Microsoft SQL Server
- **Cloud & DevOps**: Microsoft Azure, Azure DevOps, CI/CD
- **Tools & Libraries**: Git, DevExpress
